

Medical Treatment Menu

Elase is among the top providers of anti-aging injection services. Our practitioners provide the highest standard of care to each client. The products used by Elase are all FDA approved, and the most effective products available on the market. At Elase Academy, injection services are provided by certified medical professionals, who are assisted by trained students.

Elase Academy offers laser hair removal, laser skin care services, injections by Board Certified MD's, and HCG weight loss. All laser services at the Academy are performed by trained students while supervised by licensed instructors who have been certified by Elase. Ask about our Laser Hair Removal Membership program, which makes smooth skin, affordable.
